### R' Hirsch Responds

I know that there are many good library books in the Jewish libraries. Is there any difference which book one chooses to read from?

## ASK THE MENAHEL

Nowadays there is a very wide variety of books in the Jewish libraries. Some of these books are very interesting while also having valuable lessons to learn from. Other books don't necessarily have a lesson but are still interesting to read.

Obviously there is more to gain from the first type of books. There is no problem with choosing the second type, but it is important to understand that there is more to gain from the first type of books.

באהבה,  
Rabbi Hirsch

## 1ST & 2ND GRADES

### A NOTE FROM RABBI HEXTER

The Brachos Album was the most recent program for our 1st and 2nd grade talmidim. When the boys said brachos they earned cards that pictured assorted foods to put in their albums. Throughout the program our lunchroom was transformed into a "brachos fair", with boys earning, trading, and gluing their cards onto the proper brachos section of their albums. The four week program brought a terrific ruach to our cheder. It generated an awareness of knowing the proper brachos on foods, as well as saying brachos clearly. It was beautiful to hear the boys ask what bracha to make on their many snacks. The program culminated with the boys receiving delicious brownies and hot cocoa. May we continue to appreciate all the brachos Hashem showers upon us constantly.
